Get started with Canon Remote Operation Viewer

1

Head to usa.canon.com.

2

Choose an imageRUNNER ADVANCE product and click **"Get Product Support."**

GET PRODUCT SUPPORT

3

Download and install Remote Operation Viewer from the **"Software"** tab in the **"Drivers & Downloads"** section.

Drivers & Downloads

Software

Once installed on your PC, open **Remote Operation Viewer**.

Canon Remote Operation Viewer

4

Enter imageRUNNER ADVANCE IP address.

5

Now **operate the MFP** as if you were standing in front of it!

6

Note: Document assumes the Remote Operation Viewer and MFP are on the same network and that the remote operation feature has been activated by an administrator. For information on how to activate the remote operation capability within the imageRUNNER ADVANCE settings, see the device eManual. Only one remote connection can access an MFP at a single time. Operation Viewer operates in the following system environments only: Windows 7 (32-bit or 64-bit)/Windows 8 (32-bit or 64-bit)/Windows 8.1 (32-bit or 64-bit)/Windows 10 (32-bit or 64-bit)/Windows Server 2008 (32-bit and 64-bit)/Windows Server 2012 (64-bit)/Windows Server 2016 (64-bit).
